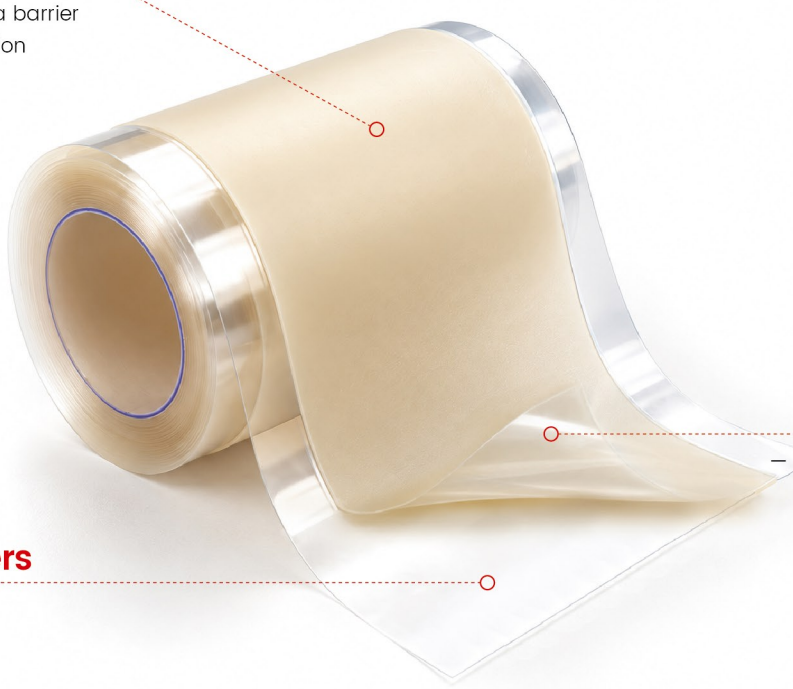
PU Film

— Waterproof&bacteria barrier
— Moist healing condition



Hydrocolloid

— Gel-forming exudate absorption
— Gentle autolytic debridement

Releasing Liners

Easy peel off

HYDROCOLLOID
ROLL

SLK MEDICAL

DESCRIPTION

Alexer® hydrocolloid roll is ideal for acne and blemish spot treatment, blister prevention, friction protection on heels and toes, superficial abrasions, and anyone with fragile or compromised skin. It is also well suited for cut-to-size application on torn skin, pressure points, and minor skin irritations. The hydrocolloid adhesive absorbs exudate and forms a protective, waterproof gel barrier that maintains a moist healing environment.

INDICATIONS

Multi-Purpose Dressing, DIY Custom Size & Shape

Treat acne & pimples

Relieve blisters & minor burns

Cover abrasions & small cuts

Offer reliable heel protection
