- friendly to sensitive and fragile skin
- prevent adhesion to the skin and avoid secondary damage
- reduce the pain of dressing changes

SILICONE FOAM DRESSING LITE

SLK MEDICAL

INDICATIONS

Alexer® silicone foam dressing lite is designed for the management of a wide range of non-to-low exuding wounds, such as:

- epidermolysis bullosa wounds
- sacral bedsore wounds
- pressure ulcers
- diabetic foot ulcers
- venousleg ulcers
- neuropathic ulcers
- arterial ulcers
- I - II degree burns

DESCRIPTION

Alexer® silicone foam dressing lite is designed to help you manage low-exuding acute and chronic wounds. The thin profile is soft and conformable, to make it easier to use for difficult-to-dress areas of the body. And you can easily cut it to size.
