Alexer®

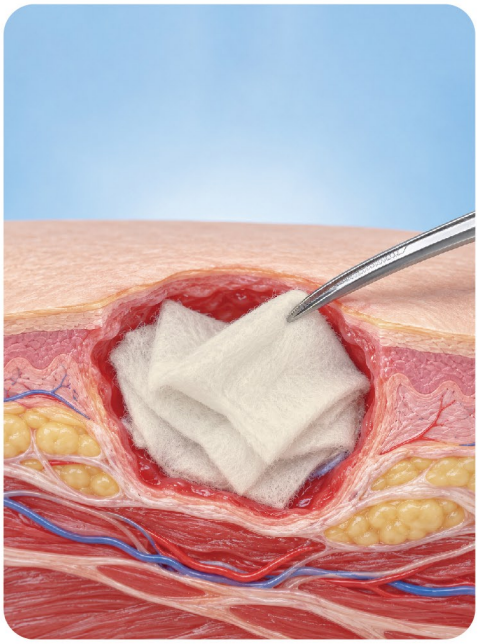

SILVER ALGINATE WOUND DRESSING

SLK MEDICAL

DESCRIPTION

Alexer® silver alginate wound dressing is a sterile, conformable, and highly absorbent dressing composed of natural alginate fibers and silver ions. Upon contact with wound exudate, it rapidly forms a soft gel that conforms to the wound bed, trapping exudate while maintaining a moist healing environment. The sustained release of ionic silver provides broad-spectrum anti-microbial protection to reduce the risk of infection.

- High Absorbency
- Broad-Spectrum Antimicrobial
- Rapid Gelling
- Atraumatic Removal
- High Conformability & Structural Integrity

INDICATIONS

Alexer® silver alginate wound dressing is Indicated for the management of moderate to heavily exuding, full and partial thickness wounds that are infected or at risk of infection, including:

- Pressure ulcers / Injury (Phase I–IV)
- Leg ulcers (venous, arterial, and mixed etiology)
- Diabetic foot ulcers
- Cavity and sinus wounds (Rope/Ribbon formulation)
- Donor sites and surgical post-operative wounds
- Second-degree burns

Type	Size	Package	Ref.No.
Square	2"x2"(5x5cm)	10pcs/box,80boxes/ctn	S18012001
	4"x4"(10x10cm)	10pcs/box,40boxes/ctn	S18012002
	6"x6"(15x15cm)	10pcs/box,40boxes/ctn	S18012003
Rope	0.75"x18"(2x45cm) Rope	5pcs/box,40boxes/ctn	S18012004
	1"x12"(2.5×30cm) Rope	5pcs/box,40boxes/ctn	S18012005
